

## Permit holder

Property developer, developer of Residential tower, 16 storeys, Construction site · Kotayk, Armenia.

## Scope

Construction of a residential building of 16 storeys above ground with an underground parking level, reinforced-concrete frame, total above-ground height not exceeding 55 m.

## Validity and conditions

Works shall commence no later than 2026-01-05 and be completed, including external works, by 2027-03-15.

The permit holder shall execute the works in accordance with the approved baseline construction schedule and shall notify the Authority of any deviation exceeding 30 calendar days on a critical-path activity within 10 working days.

The Authority and parties financing the project may carry out independent inspections, including aerial surveys, at any time during the works.
